

SHEPHERD FACES SECOND MURDER CHARGE

MERCURY IS FOUND
IN THE BODY OF
MRS. McCLINTOCK

ANALYSIS REVEALS SUFFICIENT
TO KILL TWO PER-
SONS

MERCURY ALSO FOUND IN THE
BODY OF DR. OSCAR
OLSON

(By United Press)
Chicago, April 10. — A second charge of murder today confronted William D. Shepherd who already is indicted on charges of murdering Billy McClintock.

Mercury in sufficient quantities to have killed two persons has been found in the body of Billy's mother, Mrs. Emma Nelson McClintock who died 16 years ago when the McClintock heir was a small boy.

Coroner Oscar Wolff said he was positive Mrs. McClintock had been murdered—that the evidence was of such a nature that theories of suicide or accidental poisoning could not be accepted.

It is the contention of Chief Justice Harry Olson of the Municipal Court who initiated the McClintock inquiry that Shepherd murdered Mrs. McClintock as the first step in the alleged plot to gain control of the \$1,000,000 estate; then killed the judge's brother, Oscar Olson, when the latter threatened to balk his plans; and finally poisoned Billy when the boy's impending marriage to Miss Isabelle Pope threatened to deprive him of the money.

Mercury has been found in Dr. Olson's body after three years in the grave. Whether there was sufficient to cause death is to be determined by the coroner's chemist—the report to be completed probably by Monday. The present plan is not to seek a second indictment in connection with Mrs. McClintock's death, but to hold the new developments in abeyance pending the outcome of the trial for Billy's death.

SHEPHERD LOSES
FIGHT FOR BAIL

Springfield, Ill., April 10.—William D. Shepherd, Chicago, today lost his desperate fight to gain freedom on bail when the Illinois Supreme Court denied his petition for a writ of habeas corpus. Shepherd is under indictment on a charge of killing Billy McClintock, millionaire orphan, his foster-son, to secure his fortune.

MINNESOTA FARMERS
GET MORE CREDIT

(By United Press)
St. Paul, April 10. — Minnesota farmers will be extended \$30,000,000 more in agricultural credits by the state if Governor Theodore Christlanson signs a bill passed by both houses. The senate passed a bill late yesterday authorizing the sale of additional bonds in that amount and continuing the activities of the rural credits bureau. Three other measures were passed intending to make the bureau more efficient. The house passed a bill extending the loaning power of the bureau two weeks ago. The governor has not indicated what he will do with the bill.

FIFI STILLMAN WILL
NOT CONSIDER PEACE
WITH FORMER SPOUSE

Kansas City, Mo., April 10.—Mrs. James A. (Fifi) Stillman here enroute to the Grand Canyon, repeatedly denied reports that she had received any offers of reconciliation from her husband, James A. Stillman, banker.

She said she had not received a telegram from her husband's secretary, as reported from Chicago.

A question as to whether her 14-year-old son Alexander, who was with her, was attempting to effect a reconciliation, amused both boy and mother.

"What do you take me for, a mid-Victorian lady? You might say I am one of the 1925 models. A reconciliation? That is ridiculous, is it not?" she replied.

NEW ST. CLOUD DAM
TO COST \$2,000,000

St. Cloud, Minn., April 10.—Plans for a second dam, to be constructed across the Mississippi river at Rice, near here, were announced last night by the officials of the Minnesota Light & Power Co. of Duluth. The company is now completing the Blanchard rapids development at Royalton, six miles further north, where a dam costing more than \$3,000,000 is sending 33,000 horsepower northward to the Cuyuna and Mesaba iron ranges. The dam at Rice, according to the announcement, will cost about \$2,000,000 and will have about half the head of the one at Blanchard Rapids. Its capacity is estimated at about 17,000 horsepower.

Collecting Taxes
From Prince One of
State Attorney's Jobs

St. Paul, April 10.—The Prince of Monaco is a Minnesota taxpayer. And the attorney general has to collect his taxes.

This is the statement made before the St. Paul Association of Office Men Tuesday afternoon by Albert F. Pratt, assistant attorney general in describing the multitudinous duties of attorney general. Approximately \$900 was paid to Minnesota by the Prince of Monaco, owner of Monte Carlo, in inheritance tax six months ago. The tax was paid on railroad stock.

This state official is a member of 13 state boards and commissions, the speaker told, among them being the pardon board and the board of investment in which there are \$50,000,000.

Mr. Pratt said that last year nearly \$1,000,000 inheritance taxes were collected from all over the state.

STATE BOARD
OF CONTROL MAY

TED FROM PROVISIONS OF
REORGANIZATION

SENTIMENT SEEMS STRONG TO
LET BOARD RETAIN PRES-
ENT STATUS

(By United Press)
St. Paul, April 10.—The state board of control has a good chance to be eliminated from provisions of the bill for reorganization of the state government, members believed today.

As conference committees of the house and senate met to iron out differences between the two bodies on the bill, sentiment seemed strong in favor of leaving the board of control in its present status.

The general view among legislators was that the conferees would reach this decision and then recommend that the bill be passed in the form it left the house with this single alteration.

Sen. A. J. Rockne of Zumbrota is one of the senate conference committee members. He led the fight when the bill was considered there to have the board of control and his selection by Lieut. Governor Nolan as one of the committeemen was looked upon as a compromise move on the part of the administration forces.

The lieutenant-governor was a member of the house interim committee that drew the bill. Serving with him was Governor Christlanson who has made this measure the prime one in which he is interested before the legislature.

After three day's debate the senate tore the bill to pieces leaving it a measure of practically no value and in such shape that it was believed certain the governor would veto it. Friends of the governor then turned their attention to the house to save it. Within a period of a few days they showed their political ability by lining up house members almost solidly for it.

As the bill passed there it was exactly the kind of a measure the governor and his backers wanted, but not the kind that the senate would approve.

By eliminating the board of control, however, it is said enough senators will vote for the bill to insure its passage, and this is the program that the conference committee are reported to have agreed upon.

U. S. LEADS IN THE
TYPEWRITER BUSINESS

Washington, April 10.—The United States, where the typewriter was invented, has always led in its production.

Figures just compiled by the department of commerce show that this country's exports of typewriters in the last 12 years reached a total value of \$150,000,000.

Great Britain and France bought one-third of the total. Twenty-five other countries bought more than \$1,000,000 worth each in the period. Thirty-four other nations each purchased more than \$100,000 worth. This list includes the most remote countries, including Peru, Egypt, Salvador, Siam, British West Africa, Bolivia, Panama, Hongkong and Jamaica. These 34 countries last year bought more typewriters than during the entire 10-year period ending December 1, 1922.

MERE MAN IS
TO HAVE INNING
ON THIS SUNDAYWILL PRESENT ENGAGING SPEC-
TACLE ON FIFTH AVENUE,
NEW YORKPASTEL SHADES TO MAKE BUT-
TERFLIES OUT OF THE
MEN

(By United Press)
New York, April 10.—Mere man will have his innings Sunday. His formal attire as part of Fifth Avenue's Easter parade may fall into insignificance when compared with that of his gaily clad wife, but if he should renounce the conventional cutaway or frock coat, he will present an engaging spectacle.

Pastel shades which represent to women a moderating color will transform man into butterflies, thus those who have followed other fashionable decrees and purchased suits of oyster, biscuit, China blue or other stylish tints will lighten the rainbow effect of Easter dress. Throughout the season men's clothing designers have waged war as to whether the single or double breasted coat will be "the thing."

One manufacturer, a diplomat as well, has produced the "single breasted model with a double effect." It cannot be said until Sunday which group has established itself as supreme in this conflict.

The waistcoat also may turn out to be either single or double breasted. One thing, however, is certain it doesn't need to be the same cloth as the coat. Plain, washable materials will be popular. Perhaps President Coolidge's stand against wide trousers may have brought about the change, but manufacturers have decided that the circumference of this season's trousers will be somewhere near the leg. As to hats, a pearl derby will form a relief to the customary black Bowler. Felt hats of unusual shades also will be popular. White or colored shirts with cuffs to match, vivid bow or four-in-hand ties with flowing ends, tan dogskin or colored buck gloves, black or brown low-laced shoes and spats and socks which either harmonize or match will complete the costume.

But regardless of what he wears on Fifth Avenue, at home or at town or country affairs there seems to be no limit to attire for the golf links.

Medals for Camp Men

New York, April 10. — Captured cannons and war trophies now held by Uncle Sam will be melted to make medals for students at the Citizens' military training camps who master the principles of Americanism, if the War Department adopts the suggestion made by Major General Charles P. Summerall, commander of the Second Corps Area, at Governor's Island.

"I give more than I get every day," he said. "You can't expect people dying of starvation to pay you. My wife is working down in the bread lines and my son has the team out driving supplies for the relief stations."

St. Paul, April 10.—The house killed Rep. S. A. Stockwell's bill which would have made military training at the state university optional.

At present all freshmen and sophomores are required to take the training.

The house military affairs committee recommended the bill for indefinite postponement. Mr. Stockwell presented a motion putting the measure on general orders, but it was defeated 39 to 72.

12,000 MINERS
ON STRIKE IN
NOVA SCOTIAHINTS OF UNTOLD SUFFERING
COME FROM GLACE
BAY, N. S.CONDITIONS MADE SUBJECT OF
SPIRITED CLASHES IN CAN-
ADIAN PARLIAMENT

At intervals for the last two weeks hints of untold suffering and want have trickled through on the news wires from Glace Bay, Nova Scotia, on the tip of the American continent, where 12,000 miners are on strike.

Conditions there have been made the subject of spirited clashes in the Canadian parliament. The United Press agent Paul R. Mallon, a seasoned correspondent, to Glace Bay and his story follows:

(By United Press)
Sydney, Cape Breton, N. S., April 10.—In a faraway colony of misery at this tip of the American continent 5,000 victims of the age-old struggle between coal miners and operators today are facing starvation.

A month's strike has forced them—mostly women and children—to become public charges on a dwindling relief fund that can give them only 3c a meal for food and sometimes not even that.

Thousands more of the 60,000 affected miners and dependents are living in filth and squalor under conditions that have doubled the death rate and filled the hospitals.

In four days' travel through the stricken district, I have found families with nine and ten children living in two room company houses with not enough clothing to cover their bodies, no pants for the boys to go to school and pregnant mothers—pale and emaciated—who have been without food for four days.

The handicapped and impoverished relief committee have been doing all that the charitable people of Canada have contributed—but in the words of M. A. MacDonald, chairman of the Glace Bay relief committee, there is "only enough left to us to keep body and soul together—and I don't know how long that will continue."

"Each day our funds grow smaller," he said. "We have been giving them meat one day a week, but we couldn't give them any meat this week because we didn't have the money. Herring and cod and bread and tea is about all we can buy and we need ten times more of those than we can get. The government has given us no funds. The merchants here are hard pressed already and they can give us no more. We are helpless. Hungry children are praying for food. I shudder to think of what is to happen if they do not get it."

His story is a duplicate of every impartial man in this district. The town physician, Dr. E. O. MacDonald, reported that diphtheria had broken out, adding to the misery and the hospitals were filled. With sanitary conditions as they are and so many persons undernourished for a month, he told how easily they would fall under an epidemic. Dr. MacDonald and other physicians are working without pay.

"I give more than I get every day," he said. "You can't expect people dying of starvation to pay you. My wife is working down in the bread lines and my son has the team out driving supplies for the relief stations."

Washington, April 10.—American oil interests are trying to force the United States Government to recognize Soviet Russia, a high administration official said today. Whether recognition was in sight he did not say, though he declared that such a decision would not be determined by pressure from oil interests. Posted reports purporting to come from the state department said this government considers Japan has violated her "open door in the Far East" pledge made at the Washington arms conference by signing the recent Russo-Japanese treaty granting oil concessions to Japan in northern Sakhalin.

It is estimated a freight train of 5,000 cars, stretching 40 miles, would be required to haul the Gloucester yearly haul.

HERRIOT SEEKS
SENATE VOTE OF
CONFIDENCESENATOR MARSAL SELECTED
TO INTERPOLATE THE
GOVERNMENTAN ADVERSE VOTE MEANS THE
DOWNFALL OF THE HERRIOT
MINISTRY

(By United Press)
Paris, April 10.—Premier Herriot puts the financial policies of his government to the supreme test of a senate vote of confidence this afternoon.

Senator Francois Marsal was selected to interpolate the government regarding the financial situation after which the premier was to reply and demand an expression of confidence.

The situation was critical, as an adverse vote such as was returned in the senate a few days ago, would mean the downfall of the Herriot government.

In view of the narrow margin of 49 votes by which Herriot won his vote of confidence in the chamber last night, his willingness to accept the interpolation from Francois Marsal was considered a bold cast of the die. There was every possibility his government would fall and the premier's friends indicated Herriot was prepared for this.

BELIEVED HERRIOT
REGIME WILL FALL

Paris, April 10.—The Herriot ministry started in the senate today as a fiery speech of Francois Marsal, minister of finance in the Poincare regime, drew tremendous applause when he denounced the present government.

Marsal's address was in vindication of the financial situation found by Herriot when he assumed the premiership. The Senator concluded his exhorting speech with a burst of eloquence.

"No levy on capital," he shouted. "No new taxes—give back to the country the confidence this government has lost."

It is up to the senate to decide. Great applause from more than half the senators greeted Marsal as he took his seat, leading observers to believe the Herriot government probably will fall in an adverse test vote of confidence today.

Herriot in defending his program spoke of the difficulties met by his cabinet when they inherited a tremendous national debt from previous governments. Rather than to decrease the war debt, post war ministers were after additional loans, he charged.

He pointed out that in 1924 under the Poincare regime loans for the devastated regions were a complete failure.

"The public had no confidence in the government then," he declared.

RADICAL PREMIER
IS DEFEATED

Paris, April 10.—Edouard Herriot, radical premier of France, was denied a vote of confidence in the senate today after hours of debate upon the government's financial policies. The official vote was 156 to 132.

An extraordinary meeting of the cabinet will consider the advisability of the government resigning immediately.

Coming on the heels of yesterday's meager margin of 49 votes in the chamber of deputies, today's action greatly demonstrated the disaffection of Herriot's parliamentary majority.

Indications of the adverse vote were forecast in the tremendous applause accorded former Finance Minister Marsal when he took the rostrum and reviewed and combated the arguments advanced by Herriot in the chamber yesterday.

(By United Press)
Chicago, April 10.—A second
charge of murder today confronted

Mercury in sufficient quantities to

tock heir was a small boy.

Coroner Oscar Wolff said he was

murdered—that the evidence was of
such a nature that theories of sui-
cide or accidental poisoning could
not be accepted.

It is the contention of Chief Jus-
tice Harry Olson of the Municipal
Court who initiated the McClintock
inquiry that Shepherd murdered Mrs.
McClintock as the first step in the
alleged plot to gain control of the
\$1,000,000 estate; then killed the
judge's brother, Oscar Olson, when
the latter threatened to balk his
plans; and finally poisoned Billy
when the boy's impending marriage
to Miss Isabelle Pope threatened to
deprive him of the money.

Mercury has been found in Dr. Ol-
son's body after three years in the
grave. Whether there was sufficient
to cause death is to be determined
by the coroner's chemist—the report
to be completed probably by Monday.
The present plan is not to seek a
second indictment in connection with
Mrs. McClintock's death, but to hold
the new developments in abeyance
pending the outcome of the trial for
Billy's death.

(By United Press)
St. Paul, April 10.—The state
board of control has a good chance

today.

As conference committees of the

of the house interim committee that
drew the bill. Serving with him
was Governor Christanson who has
made this measure the prime one in
which he is interested before the

After three day's debate the sen-
ate tore the bill to pieces leaving it
a measure of practically no value and
in such shape that it was believed
certain the governor would veto it.

Friends of the governor then turned
their attention to the house to

ity by lining up house members al-
most solidly for it.

As the bill passed there it was ex-
actly the kind of a measure the gov-
ernor and his backers wanted, but
not the kind that the senate would

By eliminating the board of con-

its passage, and this is the program
that the conference committee are
reported to have agreed upon.

women a moderating color will trans-
form man into butterflies, thus those
who have followed other fashionable
decrees and purchased suits of oyster,
biscuit, China blue or other stylish
tints will heighten the rainbow ef-
fect of Easter dress. Throughout
the season men's clothing designers
have waged war as to whether the
single or double breasted coat will
be "the thing."

One manufacturer, a diplomat as
well, has produced the "single
breasted model with a double effect."
It cannot be said until Sunday which
group has established itself as su-
preme in this conflict.

The waistcoat also may turn out
to be either single or double breast-
ed. One thing, however, is certain
it doesn't need to be the same cloth
as the coat. Plain, washable materi-
als will be popular. Perhaps Presi-
dent Coolidge's stand against wide
trousers may have brought about the
change, but manufacturers have de-
cided that the circumference of this
season's trousers will be somewhere
near the leg. As to hats, a pearl
derby will form a relief to the cus-
tomary black bowler. Felt hats of
unusual shades also will be popular.
White or colored shirts with cuffs to
match, vivid bow or four-in-hand
ties with flowing ends, tan dogskin
or colored buck gloves, black or
brown low-laced shoes and spats and
sock which either harmonize or match
will complete the costume.

But regardless of what he wears
on Fifth Avenue, at home or at town
or country affairs there seems to be
no limit to attire for the golf links.

Medals for Camp Men

New York, April 10.—Captured
cannons and war trophies now held
by Uncle Sam will be melted to make
medals for students at the Citizens'
military training camps who master
the principles of Americanism, if the
War Department adopts the sugges-
tion made by Major General Charles
P. Summerall, commander of the Sec-
ond Corps Area, at Governor's Island.

BILL AIMED AT "U" MILITARY TRAINING KILLED

St. Paul, April 10.—The house
killed Rep. S. A. Stockwell's bill
which would have made military
training at the state university op-
tional.

At present all freshmen and soph-
omores are required to take the train-
ing.

The house military affairs commit-
tee recommended the bill for indefi-
nite postponement. Mr. Stockwell pre-
sented a motion putting the measure
on general orders, but it was defeat-
ed 39 to 72.

12,000 MINERS ON STRIKE IN NOVA SCOTIA

HINTS OF UNTOLD SUFFERING
COME FROM GLACE
BAY, N. S.

CONDITIONS MADE SUBJECT OF
SPIRITED CLASHES IN CAN-
ADIAN PARLIAMENT

At intervals for the last two
weeks hints of untold suffering
and want have trickled through
on the news wires from Glace
Bay, Nova Scotia, on the tip of
the American continent, where
12,000 miners are on strike.

Conditions there have been
made the subject of spirited
clashes in the Canadian parlia-
ment. The United Press agent
Paul R. Mallon, a seasoned cor-
respondent, to Glace Bay and his
story follows:

(By United Press)
Sydney, Cape Breton, N. S., April
10.—In a faraway colony of misery
at this tip of the American continent
5,000 victims of the age-old struggle
between coal miners and operators
today are facing starvation.

A month's strike has forced them
—mostly women and children — to
become public charges on a dwindling
relief fund that can give them
only 3c a meal for food and some-
times not even that.

Thousands more of the 60,000 af-
fected miners and dependents are
living in filth and squalor under con-
ditions that have doubled the death
rate and filled the hospitals.

In four day's travel through the
stricken district, I have found fam-
ilies with nine and ten children liv-
ing in two room company houses
with not enough clothing to cover
their bodies, no pants for the boys
to go to school and pregnant mothers
—pale and emaciated — who have
been without food for four days.

The handicapped and impoverished
relief committee have been doing
out all that the charitable people of
Canada have contributed—but in the
words of M. A. MacDonald, chairman
of the Glace Bay relief committee,
there is "only enough left to us to
keep body and soul together—and I
don't know how long that will con-
tinue."

"Each day our funds grow small-
er," he said. "We have been giving
them meat one day a week, but we
couldn't give them any meat this
week because we didn't have the
money. Herring and cod and bread
and tea is about all we can buy and
we need ten times more of those than
we can get. The government has
given us no funds. The merchants
here are hard pressed already and
they can give us no more. We are
helpless. Hungry children are pray-
ing for food. I shudder to think of
what is to happen if they do not get
it."

His story is a duplicate of every
impoverished man in this district. The
town physician, Dr. E. O. MacDonald,
reported that diphtheria had broken
out, adding to the misery and the
hospitals were filled. With sanitary
conditions as they are and so many
persons undernourished for a month,
he told how easily they would fall
under an epidemic. Dr. MacDonald
and other physicians are working
without pay.

"I give more than I get every day,"
he said. "You can't expect people
dying of starvation to pay you. My
wife is working down in the bread
lines and my son has the team out
driving supplies for the relief sta-
tions."

SOUTH DAKOTA CUTS GASOLINE TO 20c A GALLON

(By United Press)
Pierre, S. D., April 10.—The state
today cut the retail price of gasoline
to 20c a gallon.

Standard and independent dealers
are charging 23c. If the Standard
Oil Company follows precedent, it
will meet the state prices and inde-
pendent dealers will follow.

GOVERNOR LOSES CHARIOT IN WHICH HE HAD CAMPAIGNED

(By United Press)
St. Paul, April 10.—Police of the
Twin Cities searched today for
Governor Theodore Christanson's
diver sedan stolen in Minneapolis.
It was the chariot in which he
made his successful campaign for
governor.

OIL INTERESTS WANT RUSSIA RECOGNIZED

(By United Press)
Washington, April 10.—American
oil interests are trying to force the
United States Government to recog-
nize Soviet Russia, a high adminis-
tration official said today. Whether
recognition was in sight he did not
say, though he declared that such a
decision would not be determined by
pressure from oil interests. Posted
reports purporting to come from the
state department said this govern-
ment considers Japan has violated
her "open door in the Far East"

pledge made at the Washington arms
conference by signing the recent
Russo-Japanese treaty granting oil
concessions to Japan in northern
Sakhalin.

In view of the narrow margin of
49 votes by which Herriot won his
vote of confidence in the chamber
last night, his willingness to accept
the interpolation from Francois Mar-
sal was considered a bold cast of the
dice. There was every possibility his
government would fall and the pre-
mier's friends indicated Herriot was
prepared for this.

BURGLAR SUSPECT SHOT BY PATROLMAN

WALTER PINELL OF NEBRASKA SHOT AND KILLED IN OKLA- HOMA CITY

(By United Press)
Oklahoma City, April 10.—Walter
Pinell, 25, of Grand Island, Neb.,
burglar suspect was shot and killed
here today by Patrolman Jack Cum-
mings.

Jack Lee of Ogden, Utah, compan-
ion of Pinell, surrendered to police
shortly after the shooting.

Cummings found an automobile
parked in front of a grocery store
with its motor running. When Pin-
ell came from behind the store Cum-
mings ordered him to throw his
hands up. Pinell made a suspicious
move and Cummings shot.

DALTON LOSES LIBEL SUIT FOR \$1,000,000

Minneapolis, April 10.—Emmett
Dalton, only surviving member of
the famous Dalton brothers gang of
25 years ago, was denied damages
against W. H. Fawcett and the Faw-
cett Publishing Company, Inc., in
federal court here when the jury re-
turned a verdict in favor of the lat-
ter in the \$1,000,000 libel suit
brought by Dalton.

\$10 PER MONTH FOR COLLEGE MAN

(By United Press)
New York, April 10.—Because
men with a college education can be
hired to work for less than \$10 per
month in the city of Calcutta, and
because there are more than two
thousand college graduates in the
city unemployed, the missionaries of
the Methodist Episcopal church un-
der the leadership of Bishop Freder-
ick B. Fisher, are planning to give
extensive vocation courses in all
their schools, according to the report
just made to the Board of Foreign
Missions. It is said that the em-
phasis has been so placed upon men-
tal training, and physical handwork
has been so looked down upon in re-
cent years that every college gradu-
ate wants a "sitting post."

Fish and Gloucester

Gloucester, Mass., April 10.—In
fact as well as in name Gloucester
is still supreme in the fishing in-
dustry. During 1924, the "Gloucester
fleet" caught approximately 150,000-
000 pounds, cod predominating. It
is estimated a freight train of 5,000
cars, stretching 40 miles, would be
required to haul the Gloucester year-
ly haul.

HERRIOT SEEKS SENATE VOTE OF CONFIDENCE

SENATOR MARSAI SELECTED
TO INTERPOLATE THE
GOVERNMENT

AN ADVERSE VOTE MEANS THE
DOWNFALL OF THE HERRIOT
MINISTRY

(By United Press)
Paris, April 10.—Premier Herriot
puts the financial policies of his gov-
ernment to the supreme test of a
senate vote of confidence this after-
noon.

Senator Francois Marsal was se-
lected to interpolate the government
regarding the financial situation af-
ter which the premier was to reply
and demand an expression of confi-
dence.

The situation was critical, as an
adverse vote such as was returned
in the senate a few days ago, would
mean the downfall of the Herriot
government.

In view of the narrow margin of
49 votes by which Herriot won his
vote of confidence in the chamber
last night, his willingness to accept
the interpolation from Francois Mar-
sal was considered a bold cast of the
dice. There was every possibility his
government would fall and the pre-
mier's friends indicated Herriot was
prepared for this.

BELIEVED HERRIOT REGIME WILL FALL

Paris, April 10.—The Herriot mi-
nistry started in the senate today as
a fiery speech of Francois Marsal,
minister of finance in the Poincare
regime, drew tremendous applause
when he denounced the present gov-
ernment.

Marsal's address was in vindica-
tion of the financial situation found
by Herriot when he assumed the
premiership. The senator concluded
his exhorting speech with a burst
of eloquence.

"No levy on capital," he shouted.
"No new taxes—give back to the
country the confidence this govern-
ment has lost."

It is up to the senate to decide.
Great applause from more than
half the senators greeted Marsal as
he took his seat, leading observers to
believe the Herriot government prob-
ably will fall in an adverse test vote
of confidence today.

Herriot in defending his program
spoke of the difficulties met by his
cabinet when they inherited a tre-
mendous national debt from previous
governments. Rather than to de-
crease the war debt, post war min-
isters were after additional loans, he
charged.

He pointed out that in 1924 under
the Poincare regime loans for the
devastated regions were a complete
failure.

"The public had no confidence in
the government then," he declared.

RADICAL PREMIER IS DEFEATED

Paris, April 10.—Edouard Her-
riot, radical premier of France, was
denied a vote of confidence in the
senate today after hours of debate
upon the government's financial pol-
icies. The official vote was 156 to
132.

An extraordinary meeting of the
cabinet will consider the advisability
of the government resigning im-
mediately.

Coming on the heels of yesterday's
meager margin of 49 votes in the
chamber of deputies, today's action
greatly demonstrated the disap-
pointment of Herriot's parliamentary majority.

Indications of the adverse vote
were forecast in the tremendous ap-
plause accorded former Finance Min-
ister Marsal when he took the rostrum
and reviewed and combated the
arguments advanced by Herriot in
the chamber yesterday.

BIG PARADE TO START KERMESS

Brainerd Boys Band to Lead Procession at 7 O'clock Tuesday Evening From Elks Club

20 TOREADORS IN COSTUME

Seventy Lady Elks Dressed Like Spanish Senoritas Occupying Seats of Honor in Fords

Tuesday evening, April 14, will see a gallant parade starting from the Elks club at 7 o'clock, in commemoration of the opening of the Elks Kermess covering a period of five days, April 14, 15, 16, 17 and 18.

Art Drogseth, chairman of the big Kermess entertainment, has secured the Brainerd Boys band to lead the parade, the offer to participate having been made by the Director E. A. Page and Fremont Turcotte.

Following the band which will be resplendent in its natty uniforms, will come the twenty toreadors of the Elks. The uniforms of the captains will give a dash of riotous color to the parade. Red, yellow and gold colors predominate in the vests, the trousers are slashed and a large sombrero tops off the costume which latter is further accentuated by brilliantly hued sashes. It is expected to have some of the toreadors on the deck of prancing nags.

Following the toreadors will come Fords carrying as guests of honor Lady Elks, 70 or more, attired in the gay gowns of Spanish señoritas. It is expected to have a drum corps or two in the parade and also cars carrying Elks delegations from St. Cloud, Little Falls, Bemidji, Duluth, Breezy Point Lodge, etc.

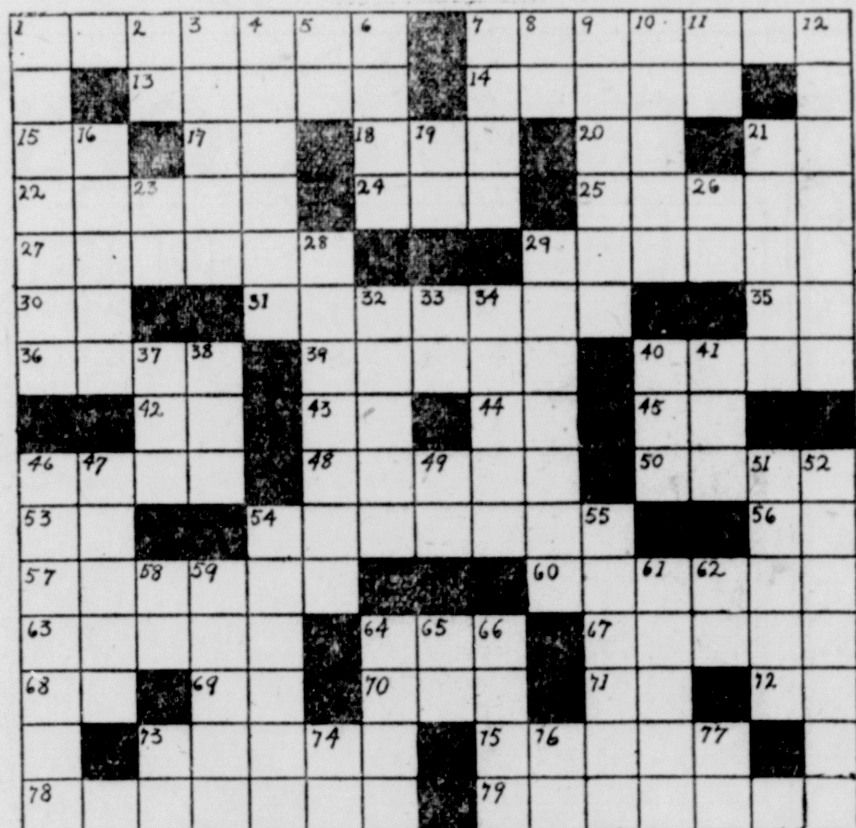

If Captain W. H. Fawcett can be prevailed upon he may have some notable contribution in the parade. All of Breezy Point has promised to attend the Kermess.

After the parade, the Kermess will open promptly at 7:30 o'clock. The slogan of the Kermess is "All For Fun" and "Fun For All". All of Brainerd Lodge is enthused and for the successful staging of this great entertainment directed by W. A. Kellp of Minneapolis lodge. Tickets have been sold throughout the wide jurisdiction of Brainerd Lodge and out-of-town members are evidencing deep interest. The net results of the Kermess will go into the convention fund for entertainment of the great convention to be held in Brainerd August 20, 21 and 22.

Rowland Jenkins, vocalist, will sing "The Rosary" and several popular numbers. Mr. Jenkins made a decided hit with Lyceum audiences on last Sunday by his excellent rendition of the late song hits, and it is felt that he will receive an even greater welcome on Easter.

The Arcadian orchestra has been playing at the Lyceum on Sunday evenings for some time, and has made a host of friends with its snappy music. It will play the latest popular dance numbers and will feature several new popular songs that will be heard for the first time in Brainerd.

"The Great Divide" is the feature picture selected for Easter Sunday's showing. It is taken from the well known stage play of the same name that has proven such a success in the East.

The stars in this strong Western picture include Conway Tearle, Alice Terry, and Wallace Beery, supported by an excellent cast. It is a film that will live in the hearts of those who see it, long after others are forgotten.

This three-fold entertainment is a combination that will undoubtedly draw capacity houses at the Lyceum theatre on Easter Sunday, matinee and night, and is in accordance with

the management's policy of bringing only the best that can be obtained for showing at this popular theatre.

PAST MATRON'S CLUB

Met at Home of Mrs. A. J. Ellison, Plan Card Party For April 23

On Tuesday afternoon the Past Matron's club met at the home of Mrs. A. J. Ellison, 523 North 4th street, for their regular monthly business and social meeting. Plans were made to hold an invitational card party in the Masonic parlors on Thursday evening, April 23, at which time both bridge and 500 will be played. Mrs. Anna Ellison, Mrs. Midge Fisher and Mrs. Laura Moerke are planning a lunch to be served after the game.

Bethel of Jobs Daughters was discussed which the Eastern Star is expecting to organize and sponsor in the early fall. All girls between the ages of 13 and 18 who are daughters, sisters, grand-daughters and nieces of Master Masons are eligible to join this Bethel. The work of this organization is instructive and interesting and a great help to mould a young lady into a beautiful character, and many are anxiously awaiting the time for the activity to begin.

After the meeting adjourned, Mrs. Ellison served delicious refreshments.

The next meeting will be entertained by Mrs. Laura Moerke and Mrs. Fanny Forsberg.

NEAR END OF TRAIL BLAZING

THE BRAINERD DISPATCH, in commenting on the threat against Bemidji by the Jefferson Highway association to mark a new route and leave that city on the side, because its citizens do not feel the necessity of further financial contributions, remarks that the day of the trail blazer is passing.

A few years ago these associations did good work, when highways were unmarked. Two of the best were the Jefferson Highway and the National Parks association. They marked the best available highways, and were a great help to the traveling public, and especially to the tourists.

That need is now better supplied by the Minnesota State Highway Commission on the trunk highways, and by the counties on state highways.

The strangers within our commonwealth can take a highway map and reach any part of the state without making a single inquiry. The trunk highways are numbered, and the state highways coming under the care of the state and the county commissioners are lettered. One has only to know where he wants to go, find the numbered and lettered roads that lead to his destination, and then he simply has to jog along on good roads.

St. Cloud has received the same threat as has Bemidji, and promptly laid it on the table. Trail marking by associations simply makes confusion. Minnesota has marked its highways so plainly that he who tours in a flivver may read as he speeds.

There is one agency that should be encouraged, that is not trying any graft scheme on ambitious towns—the Ten Thousand Lakes association. It is not playing favorites between sections, but is advertising Minnesota effectively to bring in tourists, and it leaves to them what wonders and delights they wish to see and enjoy.

What contributions are made by cities and towns, by garages, hotels and restaurants, should be to the Ten Thousand Lakes service, and eliminate the trail blazers whose day of usefulness is of the past.—St. Cloud Daily Journal-Press.

NATIONAL ADVERTISING IN NEWSPAPERS

THE Bureau of Advertising of the American Newspaper Publishers' Association has done an inestimable service to agents, advertisers and newspapers by compiling the 1924 expenditures of leading national advertisers in newspapers.

As quoted by the Chicago Tribune the Bureau's estimates for the Ford Motor company national advertising in newspapers is \$2,000,000. The Ford people top the list. Then comes the Victor Talking Machine Company with \$1,900,000; the Chevrolet Motor Company, including dealers' advertising, amounting to \$1,650,000; American Tobacco Co., \$1,600,000; Liggett & Myers Tobacco Co., \$1,500,000; Standard Oil Co. of Indiana, \$1,500,000; Calumet Baking Powder Co., \$1,400,000; Wm. Wrigley, Jr., & Company, \$1,250,000; Dodge Brothers, \$1,200,000; Paige-Detroit Motor Car Company, \$1,000,000.

The phrase so glibly used, nationally advertised, commences to mean something when one views these impressive figures. One realizes that a business reputation gained by advertising and putting out an article measuring up to its advertising value, means something which cannot begin to be measured in dollars and cents.

It costs something to make a product a household word, but increasing sales makes it worth while.

JOE BULLET BUSH

JOE BUSH starts the 1925 year of his career hard as nails, eternally fit, and the old arm and his eyes working 100 per cent. No gunwales of fat for Bush to dislodge. No hectic complexion or short breath. Joe Bush, who has won pennants for every team he has been with, from Brainerd to Missoula, Philadelphia to Boston and New York, is getting set to garner in this year's American League flag for the St. Louis Browns.

All Brainerd is saving its money to see the world's series at St. Louis. We have it doped out that Bush and Sisler will turn the trick for St. Louis, backed up by a team working like well greased machinery. If St. Louis has any players dallying around and not signed, they had better hop in or miss the world's series money.

St. Louis already has a hint of the happy day and has enlarged the ball park by adding 10,000 bleacher seats. Watch Joe Bush and see the attendance pile up whenever Joe pitches, and then see the park butt its sides when Bush and Shocker engage in a pitching duel.

HERE IN THE EARLY DAYS

THE news item under a Chicago date line recording the death of G. S. Fernald carried a touch of sadness to the old-timers in town who knew him well. As a young man, Mr. Fernald settled in Brainerd and practiced law, forming a partnership, Frater & Fernald.

He was prominent in the Episcopal church. He was a local attorney of the Northern Pacific railway company. There was a general feeling of regret when Mr. and Mrs. Fernald and children left for Chicago, but it was a step ahead in his career, for he became general counsel of the Pullman company and filled that position with credit for over 20 years.

STYLES of yesterday bloomed on the lawn of the high school Thursday. It brought to mind the fact that the old days called for more cloth to a dress, more brim to a hat, more leather to a shoe.

MR. FORD's page in the Dearborn Independent of April 11, discusses the statement that our generation moves at too fast a pace. We wonder if he refers to our driving of his cars.

IN a survey made of the car purchasing situation, it is said that only 10 per cent pay cash down. The largest part of the business appears to be done on credit and installments.

THE Ironton fire department is sprucing up, buying new uniforms, etc., and getting ready for the State Firemen's convention to be held at Crosby in June.

Gentlemen:

On Monday March 23, I sent you one dollar for which you was to send me one bottle of Skaugs Stomach Remedy, and I received the bottle yesterday, but it was all smashed and all the medicine had run out.

I saw the post master at Osakis about it today, and he said that I should write to you people, as he said it had not been properly wrapped, and the post master at Brainerd should not have accepted same.

Now I am a poor man and I do not like to pay for that bottle twice, but I need the medicine very bad so please send me another bottle.

It is the only medicine that has helped me. I have suffered with stomach trouble for a number of years.

You may use this letter that I am writing you, as your medicine sure have done wonders for me. I have also told others about it, and will continue to do so.

NEAR END OF TRAIL BLAZING

THE BRAINERD DISPATCH, in commenting on the threat against Bemidji by the Jefferson Highway association to mark a new route and leave that city on the side, because its citizens do not feel the necessity of further financial contributions, remarks that the day of the trail blazer is passing.

A few years ago these associations did good work, when highways were unmarked. Two of the best were the Jefferson Highway and the National Parks association. They marked the best available highways, and were a great help to the traveling public, and especially to the tourists.

That need is now better supplied by the Minnesota State Highway Commission on the trunk highways, and by the counties on state highways.

The strangers within our commonwealth can take a highway map and reach any part of the state without making a single inquiry. The trunk highways are numbered, and the state highways coming under the care of the state and the county commissioners are lettered. One has only to know where he wants to go, find the numbered and lettered roads that lead to his destination, and then he simply has to jog along on good roads.

St. Cloud has received the same threat as has Bemidji, and promptly laid it on the table. Trail marking by associations simply makes confusion. Minnesota has marked its highways so plainly that he who tours in a flivver may read as he speeds.

There is one agency that should be encouraged, that is not trying any graft scheme on ambitious towns—the Ten Thousand Lakes association. It is not playing favorites between sections, but is advertising Minnesota effectively to bring in tourists, and it leaves to them what wonders and delights they wish to see and enjoy.

What contributions are made by cities and towns, by garages, hotels and restaurants, should be to the Ten Thousand Lakes service, and eliminate the trail blazers whose day of usefulness is of the past.—St. Cloud Daily Journal-Press.

NATIONAL ADVERTISING IN NEWSPAPERS

THE Bureau of Advertising of the American Newspaper Publishers' Association has done an inestimable service to agents, advertisers and newspapers by compiling the 1924 expenditures of leading national advertisers in newspapers.

As quoted by the Chicago Tribune the Bureau's estimates for the Ford Motor company national advertising in newspapers is \$2,000,000. The Ford people top the list. Then comes the Victor Talking Machine Company with \$1,900,000; the Chevrolet Motor Company, including dealers' advertising, amounting to \$1,650,000; American Tobacco Co., \$1,600,000; Liggett & Myers Tobacco Co., \$1,500,000; Standard Oil Co. of Indiana, \$1,500,000; Calumet Baking Powder Co., \$1,400,000; Wm. Wrigley, Jr., & Company, \$1,250,000; Dodge Brothers, \$1,200,000; Paige-Detroit Motor Car Company, \$1,000,000.

The phrase so glibly used, nationally advertised, commences to mean something when one views these impressive figures. One realizes that a business reputation gained by advertising and putting out an article measuring up to its advertising value, means something which cannot begin to be measured in dollars and cents.

It costs something to make a product a household word, but increasing sales makes it worth while.

JOE BULLET BUSH

JOE BUSH starts the 1925 year of his career hard as nails, eternally fit, and the old arm and his eyes working 100 per cent. No gunwales of fat for Bush to dislodge. No hectic complexion or short breath. Joe Bush, who has won pennants for every team he has been with, from Brainerd to Missoula, Philadelphia to Boston and New York, is getting set to garner in this year's American League flag for the St. Louis Browns.

All Brainerd is saving its money to see the world's series at St. Louis. We have it doped out that Bush and Sisler will turn the trick for St. Louis, backed up by a team working like well greased machinery. If St. Louis has any players dallying around and not signed, they had better hop in or miss the world's series money.

St. Louis already has a hint of the happy day and has enlarged the ball park by adding 10,000 bleacher seats. Watch Joe Bush and see the attendance pile up whenever Joe pitches, and then see the park bust its sides when Bush and Shocker engage in a pitching duel.

HERE IN THE EARLY DAYS

THE news item under a Chicago date line recording the death of G. S. Fernald carried a touch of sadness to the old-timers in town who knew him well. As a young man, Mr. Fernald settled in Brainerd and practiced law, forming a partnership, Frater & Fernald.

He was prominent in the Episcopal church. He was a local attorney of the Northern Pacific railway company. There was a general feeling of regret when Mr. and Mrs. Fernald and children left for Chicago, but it was a step ahead in his career, for he became general counsel of the Pullman company and filled that position with credit for over 20 years.

STYLES of yesterday bloomed on the lawn of the high school Thursday. It brought to mind the fact that the old days called for more cloth to a dress, more brim to a hat, more leather to a shoe.

MR. FORD's page in the Dearborn Independent of April 11, discusses the statement that our generation moves at too fast a pace. We wonder if he refers to our driving of his cars.

IN a survey made of the car purchasing situation, it is said that only 10 per cent pay cash down. The largest part of the business appears to be done on credit and installments.

ALL READY FOR THE EASTER PARADE SUNDAY

PREDOMINANT NOTE THIS SEASON IS GAY COLORS

MEN QUITE AS GAY AS WOMEN IN COLOR SCHEME

By HEDDA HOYT
(Fashion Editor of the United Press)
(Written for the United Press)
New York, N. Y., April 9.—Easter day will see a riot of color! Pastel shades vying with vivid ones are turning Fifth Avenue into a mass of color such as has never before been equaled. Owing to the early spring, women have been wearing their Easter costumes for several weeks in advance of Easter Sunday and the most predominate note this season is color.

Men are quite as gay as women in their color schemes. Hundreds of them, both old and young, are dressed in light powder blue suits and overcoats; a blue that has never before been attempted by men. Light grays are usually popular with the menfolk and suits, overcoats and hats match in shade giving the "ensemble" effect to the masculine world. Never have men been such glorious creatures.

But—back to the women! Their styles have already been photographed and reprinted in every newspaper in the United States until we are all familiar with the silhouette—short skirts, flaring hems, furless necklines, fur hemborders, long snug sleeves and small head-fitting hats.

The thing that can't be described is color! Their range runs from the palest of pastels to the most vivid shades imaginable and there is also a wide popularity for dull shades, such as taupe, tan, navy and black. The most popular pastel shades are those of rose, light green and Madonna blue. Red is the predominating shade among the vivid ones and is used in entire ensembles, coats and as tunics which are worn under more sombre ensemble jackets. Navy combined with red is a favorite of the flapper. The matrons, judging by the numbers parading on the Avenue, prefer the black silk or cloth trimmed in fur at the hemline.

Costumes are divided into three groups; ensembles, long coats and mannish tailcoats. Ensemble suits are the most colorful of the lot. Long coats choose either pastel shades or black while mannish tailored suits are best in mannish weaves.

On Broadway, where styles are often fashioned by the actresses themselves, one finds pink and rose the leading shades. Even where the costume is dark, the hat is often of a soft rose or pinkish crushed felt or of a straw and silk combination. Long coats of dull rose cloth have front flares bordered in gray fox. Felt hats match the coats. Light tan is also popular on Broadway and such costumes usually are matched by hat, hosiery, shoes and gloves.

And while Broadway goes in for pastels, Fifth Avenue prefers more brilliant shades of red and green. Ensemble suits of lip-stick red trimmed in black are many. Black satin pumps, gunmetal stockings and black gloves often are worn to give a subdued note to the red outfit. Among the novelty coats worn by the debutantes on the Avenue are double-breasted models which are made to suggest the figures until they reach the hips, where they flare in wide circular movement.

These double-breasted models recall the coats of the ancient hack-drivers. They are untrimmed by fur and have severely tailored lines. One of Madonna blue has a collar of sapphire blue velvet, as its only trim-

ming. Others of golden brown are worn without the addition of fur neckpieces and have draped hats of self material.

Literally hundreds of women are wearing long black cloth or silk coats with straight backs and flaring fronts trimmed in fur. Monkey fur adorns many of the ribbed silk models and the heavy satins. Red fox trims most of the cloth models, although gray fox is also popular on black.

The mannish suits with double-breasted coats and extremely short skirts are garbs of the younger set, who want to look "nifty but natural." Mixed weaves, pinstripes and plaids are the popular materials. Coats are cut exactly like a man's suit coat, with patch pockets and flat lapels. Some of these suits have little vests cut like a man's vest. One of the most attractive models had a coat of brown suede cloth, a tan camel's hair vest and a brown and tan striped skirt. A small brown felt hat accompanied this.

Hosiery and shoes seem to melt right into the frock this Easter. There are many tan and gray suede shoes matched by hosiery and gloves. Black and brown shoes are as popular as ever, although there is usually a trimming of gray or tan leather piping.

Scarfs are numerous and colorful, owing to the disappearance of fur about the neck. Corsages, if not real, are not worn as much as they were earlier this Winter.

Gay hats are the order of the day, with red, pink and caramel shades leading.

One always looks for novelties at Eastertime, but this season every second costume is a novelty, or would be, were the season not so full of novelties. About the most startlingly gowned woman was one who wore a yellow fitch jacquette over a yellowish cloth frock. A small felt hat matched her frock and her hosiery was a decided yellow, worn with shoes of brown satin. She reminded one of a yellow duckling.

Another rather startling outfit recently worn was a black and white checked coat with cross-word puzzle

design. Still another novelty was a coat of four horizontal layers of different colors. This coat began at the neckline in seal brown which faded into henna, then orange, then yellow. Thus the wearer had brown about her throat and yellow at the hemline with stripes of henna and orange about the center of her garment.

But aside from a few oddities Easter costumes are pretty much

alike—pastel cloth coats matched by hats, vivid ensembles fur-trimmed at the front uare, graceful black coats trimmed in yellowish or gray furs and boyish suits. Fur is concentrated at the hemlines. Sleeves are long and slender. And colors rage rampant.

The most startling thing about this season's styles is the vividness of men's raiment!

"Kellogg's ALL-BRAN has entirely relieved me of constipation," writes grateful father

The ravages of constipation can be promptly stopped. Here is signed evidence.

Mr. Hunt's case is typical of thousands of others who have found habit-forming pills and drugs of no avail in seeking permanent relief from constipation. Read this interesting letter:

Kellogg's ALL-BRAN has entirely relieved me of constipation. Before I started using ALL-BRAN I was a regular guy in taking pills—always getting something to bring relief. Now I never touch them. I fully recommend it to anyone to relieve constipation as you advertise on the package. My daughter also eats ALL-BRAN and I can see her health improve.

ALL READY FOR THE EASTER PARADE SUNDAY

PREDOMINANT NOTE THIS SEASON IS GAY COLORS

MEN QUITE AS GAY AS WOMEN IN COLOR SCHEME

By REDDA HOYT
(Fashion Editor of the United Press)
(Written for the United Press)
New York, N. Y., April 9.—Easter day will see a riot of color! Pastel shades vying with vivid ones are turning Fifth Avenue into a mass of color such as has never before been equaled. Owing to the early spring, women have been wearing their Easter costumes for several weeks in advance of Easter Sunday and the most predominate note this season is color.

Men are quite as gay as women in their color schemes. Hundreds of them, both old and young, are dressed in light powder blue suits and overcoats; a blue that has never before been attempted by men. Light grays are usually popular with the menfolk and suits, overcoats and hats match in shade giving the "ensemble" effect to the masculine world. Never have men been such glorious creatures.

But—back to the women! Their styles have already been photographed and reprinted in every newspaper in the United States, until we are all familiar with the silhouette—short skirts, flaring hems, furless necklines, fur hemborders, long snug sleeves and small head-fitting hats.

The thing that can be described is color! Their range runs from the palest of pastels to the most vivid shades imaginable and there is also a wide popularity for dull shades, such as taupe, tan, navy and black. The most popular pastel shades are those of rose, light green and Madonna blue. Red is the predominating shade among the vivid ones and is used in entire ensembles, coats and as tunics which are worn under more sombre ensemble jackets. Navy combined with red is a favorite of the flapper. The matrons, judging by the numbers parading on the Avenue, prefer the black silk or cloth trimmed in fur at the hemline.

Costumes are divided into three groups: ensembles, long coats and mannish tailcoats. Ensemble suits are the most colorful of the lot. Long coats choose either pastel shades or black while mannish tailored suits are best in mannish weaves.

On Broadway, where styles are often fashioned by the actresses themselves, one finds pink and rose the leading shades. Even where the costume is dark, the hat is often of a soft rose or pinkish crushed felt or of a straw and silk combination. Long coats of dull rose cloth have front flares bordered in gray fox. Felt hats match the coats. Light tan is also popular on Broadway and such costumes usually are matched by hat, hosiery, shoes and gloves.

And while Broadway goes in for pastels, Fifth Avenue prefers more brilliant shades of red and green. Ensemble suits of lip-stick red trimmed in black are many. Black satin pumps, gunmetal stockings and black gloves often are worn to give a subdued note to the red outfit. Among the novelty coats worn by the debutantes on the Avenue are double-breasted models which are made to suggest the figures until they reach the hips, where they flare in wide circular movement.

These double-breasted models recall the coats of the ancient hack-drivers. They are untrimmed by fur and have severely tailored lines. One of Madonna blue has a collar of sapphire blue velvet, as its only trim-

ming. Others of golden brown are worn without the addition of fur neckpieces and have draped hats of self material.

Literally hundreds of women are wearing long black cloth or silk coats with straight backs and flaring fronts trimmed in fur. Monkey fur adorns many of the ribbed silk models and the heavy satins. Red fox trims most of the cloth models, although gray fox is also popular on black.

The mannish suits with double-breasted coats and extremely short skirts are garbs of the younger set, who want to look "nifty but natural." Mixed weaves, pinstripes and plaids are the popular materials. Coats are cut exactly like a man's suit coat, with patch pockets and flat lapels. Some of these suits have little vests cut like a man's vest. One of the most attractive models had a coat of brown suede cloth, a tan camel's hair vest and a brown and tan striped skirt. A small brown felt hat accompanied this.

Hosiery and shoes seem to melt right into the frock this Easter. There are many tan and gray suede shoes matched by hosiery and gloves. Black and brown shoes are as popular as ever, although there is usually a trimming of gray or tan leather piping.

Scarfs are numerous and colorful, owing to the disappearance of fur about the neck. Corsages, if not real, are not worn as much as they were earlier this Winter.

Gay hats are the order of the day, with red, pink and caramel shades leading.

One always looks for novelties at Eastertime, but this season every second costume is a novelty, or would be, were the season not so full of novelties. About the most startlingly gowned woman was one who wore a yellow fitch jacket over a yellowish cloth frock. A small felt hat matched her frock and her hosiery was a decided yellow, worn with shoes of brown satin. She reminded one of a yellow duckling.

Another rather startling outfit recently worn was a black and white checked coat with cross-word puzzle

design. Still another novelty was a coat of four horizontal layers of different colors. This coat began at the neckline in seal brown which faded into henna, then orange, then yellow. Thus the wearer had brown about her throat and yellow at the hemline with stripes of henna and orange about the center of her garment.

But aside from a few oddities Easter costumes are pretty much

alike—pastel cloth coats matched by hats, vivid ensembles fur-trimmed at the front, graceful black coats trimmed in yellowish or gray furs and boyish suits. Fur is concentrated at the hemlines. Sleeves are long and slender. And colors rage rampant.

The most startling thing about this season's styles is the vividness of men's raiment!

"Kellogg's ALL-BRAN has entirely relieved me of constipation," writes grateful father

The ravages of constipation can be promptly stopped. Here is signed evidence.

Mr. Hunt's case is typical of thousands of others who have found habit-forming pills and drugs of no avail in seeking permanent relief from constipation. Read this interesting letter:

Kellogg's ALL-BRAN has entirely relieved me of constipation. Before I started using ALL-BRAN I was a regular guy in taking pills—always getting something to bring relief. Now I never touch them. I fully recommend it to anyone to relieve constipation as you advertise on the package. My daughter also eats ALL-BRAN and I can see her health improve.

SHORT MEETING OF SCHOOL BOARD

Aside From Routine Business, Little of Importance is Brought Up

20 TONS COAL ORDERED

Painting And Decorating Washington Building Awarded to Charles Neue

The regular meeting of the board of education on Monday evening was one of the shortest held by that body for some time. Aside from routine business there was little of importance brought up, and the board adjourned shortly after ten o'clock.

Superintendent Cobb submitted his monthly report on the condition of the book room for the month of March, which was accepted and placed on file. Mr. Cobb also made his monthly report on the conditions of the city schools, which will be published in the Dispatch.

The building committee reported having awarded the contract for painting and decorating the ceiling and sidewalls of the assembly room at the Washington building to Charles Neue, he being the lowest bidder.

The committee on fuel was authorized to purchase 20 tons of coal for use at the Washington building. Treasurer Morrison reported that he had received cancelled bonds in the sum of \$5,000, which matured on April 1st.

Mr. Stanley reported that four windows in the basement of the Garfield building in Northeast Brainerd have been broken, and the superintendent was directed to take a police officer to that building and ascertain if possible the parties who are guilty of breaking these windows. A reward of \$5 was authorized for information leading to the apprehension of such guilty parties.

Miss Marie Adair, instructor of the special class in the Riverside building, was authorized to expend a part of the receipts realized from the sale of articles made by the class for athletic material for use at that building.

It was reported that in grading the street near the Garfield building, a hole had been left where water collects near the building, and the building committee was directed to take the matter up with the city engineer to have the condition remedied.

Mrs. J. A. Thabes brought up the matter of placing nature magazines in the city schools, and it was decided to provide two such magazines for each building in the city, the subscriptions to be started with the September numbers.

The usual grist of bills were allowed. All members of the board were present except Fred Drexler, George Falconer, and C. A. Stanley, and K. S. Bredenberg.

The board met again on Thursday evening for the purpose of canvassing the ballots of the special school election on the issuance of bonds for the erection of a new high school building. All members were present except K. S. Bredenberg and E. L. Dahl. Following is the official returns of this canvass:

4 BIG VAUDEVILLE ACTS

Also Feature Picture "Gold Madness" Starring Guy Bates Post at New Park

The New Park will present four big vaudeville acts on Saturday matinee and night with the feature picture "Gold Madness" starring Guy Bates Post, who is well known to Brainerd audiences through his portrayal of the "Masquerader" both on the stage and screen. This picture is a romantic melodrama of high life in San Francisco, with a soul gripping climax in the frozen north. A short description of the acts to be presented is as follows:

Reno Sisters and Allan in "Dance Fantasia of 1925." A colorful revue of song and dance. The dainty and vivacious Reno Sisters are responsible for the dance portion of the program and Mr. Allan handles the vocal portion in a most satisfactory manner.

The Lyric Four in "Mirth and Melody." Possessors of splendid voices, they touch the high spots of harmony. Their program includes present day hits and character comedy songs all rendered faultlessly. The boys have the faculty of making each song register for an emphatic hit and their neat appearance and

pleasing personalities are added assets to their specialty. They also introduce mandolins, a string instrument, which they use advantageously.

Lew and George Pearl in "Vaudeville Vagaries." They are rotund exponents of melody and mirth who justify the many anecdotes of the good naturedness of the corpulent. They bring to the vaudeville stage approximately 500 pounds of unalloyed comedy. They have an inimitable manner of provoking laughs and their well chosen vocal selections are enhanced by their ingratiating personalities.

Gilbert and Marie Van Alst in "Looking Over the Mail." Tampering with the mail is a serious offense in the eyes of our government, but Gilbert and Marie Van Alst get away with it in such a manner as to remove all the stigma of crime and are rewarded with laughs instead of being convicted. Gilbert in the role of a suburban letter carrier delivers a letter to the pretty Marie and together they look over the contents of his bag. It is a clever comedy act.

No Shine

On nose or forehead

By Edna Wallace Hopper
My fame as a stage beauty has for decades brought me every new beauty help. Leading experts everywhere sent me their latest discoveries.

Lately there came one which will delight you. It is a greaseless cream which prevents shiny noses and foreheads. Being absorbent, it absorbs the excess oil. Being astringent, it reduces enlarged pores.

It is a wonderful help. I apply it once or twice a day to the parts that shine. Then shine is made impossible. No more powdering noses a dozen times a day.

Every woman will want it. So I have had it made up for you, dainty and fragrant. I call it Edna Wallace Hopper's No-Shine. Druggists and toilet counters now supply it at 60c per tube. So no one ever again need worry about a shiny nose.

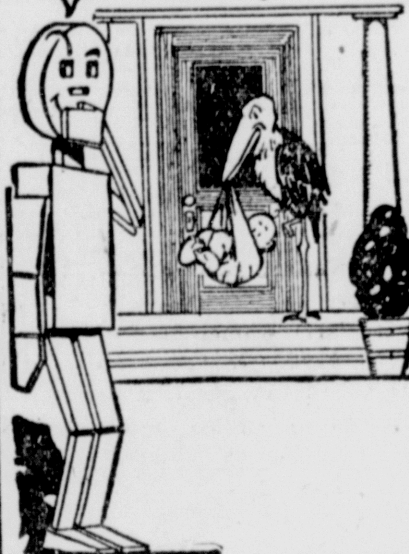

I shall be glad to mail a sample if you'll send this coupon.

Lately there came one which will delight you. It is a greaseless cream which prevents shiny noses and foreheads. Being absorbent, it absorbs the excess oil. Being astringent, it reduces enlarged pores.
It is a wonderful help. I apply it once or twice a day to the parts that shine. Then shine is made impossible. No more powdering noses a dozen times a day.
Every woman will want it. So I have had it made up for you, dainty and fragrant. I call it Edna Wallace Hopper's No-Shine. Druggists and toilet counters now supply it at 60c per tube. So no one ever again need worry about a shiny nose.
I shall be glad to mail a sample if you'll send this coupon.

FALLS FROM FREIGHT; BOTH LEGS CUT OFF

John Keavney, of St. Cloud, Died
This Afternoon From Injuries
Received This Morning

TRIED TO STEAL A RIDE

Keavney Was Rushed to St. Joseph's
Hospital, Where All Possible
Medical Attention Was Given

John Keavney, said to be about 25
years of age, passed away at 1:15
o'clock this afternoon, from injuries
received about 9:45 o'clock this
morning when he was run over by a
freight train upon which he and a
pal were attempting to steal a ride.

According to those who witnessed
the accident, Keavney and his friend,
M. T. Barrett, both of St. Cloud, were
near the flour mill on West Front
street, and ran out to catch a pass-
ing freight train, No. 623, a local
between Brainerd and Staples, plan-
ning to ride to Staples. Keavney,
whose nickname is "Tim" must have
lost his hold in swinging on to the
train, or was thrown under the
wheels, by the train's speed.

He fell across the track in such a
way that both legs were cut off close
to the body. He also received severe
bruises and a deep gash in his head.

Several of the train crew were
standing on the rear platform of the
caboose, and saw the injured man as
that car passed him. They stopped
the train immediately. Barrett, who
was with Keavney at the time of the
accident, had succeeded in pulling
his pal away from the tracks before
the balance of the train passed over
his body.

The injured man was rushed to
the hospital, where every medical
attention was given him in an effort
to save his life, but because of the
loss of blood and the shock, the bat-
tle was lost, and death occurred
shortly after one o'clock this after-
noon.

It is reported that Keavney and
Barrett had run away from home,
leaving St. Cloud on Thursday, and
coming to Brainerd. It is said that
they were attempting to make their
way to Dakota, although these re-
ports are not confirmed. Keavney
has relatives in St. Cloud and Be-
midji.

GOOD FRIDAY UNION SERVICES

The New Park theatre was well
filled with local citizens who gathered
there between the hours of 1 and 3
o'clock this afternoon for the union
Good Friday services.

Rev. L. F. Strothman officiated at
the services, and was assisted by var-
ious members of the Ministerial as-
sociation. Many attended a portion
of the exercises who could not remain
for the entire program.

Business houses were asked to close
during the hours of the services.
Banks were closed all day, it being a
legal holiday.

The vote on the special election
for the issuance of bonds to finance
a new high school building was also
canvassed, resulting in 1,995 votes
for the issuance of such bonds, and
2,139 votes against it.

On motion the city engineer was
instructed to draw plans for the con-
struction of a storm and sanitary
sewer in the First and Fifth wards,
the same to be presented at the next
regular meeting of the council. This
motion passed by a vote of 7 to 3.

On June 1st, 1925, there will be-
come due \$25,000 of revolving fund
bonds, which must be refunded. A
resolution to refund these bonds was
offered by R. H. Paine, and when put
to a vote all members voted aye.

William Wicks was employed to

look after the city dump, being hired
by the month at a monthly salary of
\$33.33, his work to begin on May

HARRY WILLS MAKING A MISTAKE—FARRELL

By HENRY L. FARRELL
(United Press Sports Editor)

New York, April 10.—When negotiations were being carried on some time ago for a match between Tom Gibbons and Harry Wills, the Negro heavy-weight challenger, modestly admitted that he desired \$300,000 for his end. Negotiations, of course, were then immediately abandoned.

Wills really may think that he is worth that much money, and again he may have covered up a reason for not wanting to fight Gibbons with an exorbitant money demand.

The demand showed nevertheless the inflated ideas that boxers have about the value of their services and it recalled a remark made some time previous about another case by Dan Morgan, veteran fight manager.

"The trouble with the boxing business now," he said, "is that five-dollar fighters and thousand dollar fighters and ten-thousand dollar fighters want a million. In the old days when they had fighters, a five-dollar fighter was a five-dollar fighter and he knew it."

"Mickey Walker, the welterweight champion, is the only champion in the business today who is worth the money they are paying for purses. Jack Dempsey as a fighter isn't worth half the money he's getting. Dempsey doesn't compare to some of the fighters like Ketchell, who were real fighters and who didn't stall around looking for a million bucks a year. Walker is a real champion, a smart fighter and a smart little business man."

As Morgan also points out, there is so much of a demand for boxing cards now and so few high class fighters who are willing to take a fair purse that ordinary fighters and punks can get into the big money. Some preliminary fighters are getting more money than champions in the old days, but the present conditions cannot continue.

RICKARD PREDICTS
A SLIM SEASON FOR
FIGHT FOLLOWERS

PUGS DEMAND TOO MUCH FOR
GOING THROUGH THEIR
PACES

SAYS HE HAS BEEN UNABLE TO
MAKE A GOOD
MATCH

By HENRY L. FARRELL

New York, April 9.—Another season of slim business for summer boxing is in prospect, according to Tex Rickard, who has two of the biggest plants in the Metropolitan district. "I have been unable to make one good match, and I don't see any in sight," Rickard said. "You can name any number of cards that would be good enough for the Yankee stadium or the Jersey City arena, but naming them and making them are two different things."

"Heavyweight matches, of course, are the most attractive to the public, but they can't be made. It begins to look like Dempsey is through. Wills doesn't want to fight any of the top-notchers. The Gibbons, Tunney match, which has been made by Jimmy de Forrest, is a good match and is one of the few naturals available."

Ebbets Improving

New York, April 9.—Charles Ebbets, president of the Brooklyn Robins, who has been seriously ill at a hotel here, was reported to be in an improved condition.

By HENRY L. FARRELL

New York, April 10.—With all his trials and tribulations, his battered hands and his trick stomach, Babe Ruth probably will be a bigger drawing card than ever this year. He has had a million dollars worth of advertising this spring and the Babe needs little but his natural color to keep the public interested in him.

When he popped up at Hot Springs to start his training, the startling news was broadcast that he was 40 pounds overweight and that he never would work himself down to fit his old uniform. He worked his head off during the day to take off six or seven pounds and would go to the dinner table so famished that he would eat the six or seven pounds back on.

Then he reported at the Yankee training camp in St. Petersburg and told a newspaper man that he was about to break and about through. He waited that he didn't have any money left and that he had only a season or two left.

He then started hitting the ball as he never hit in the early season, the waistline shrank to normal size. Bad luck followed when he broke a finger in practice and just when the finger was back in shape, he pulled up with a pair of charley horses. Then his stomach went back on him. Getting rid of that jam he had a mild attack of the flu and was coming out of that when he caught more cold and ended up with a collapse in a railroad station. He isn't over that attack yet and he may have to spend a week in the hospital before he can join the team.

There have been some hints around Broadway that it is all a part of a clever act but anyone who knows the Babe would take a swing in his defense as there never was a piece of hippodrome around him.

Ruth is sick now because he refused to heed the advice of doctors who told him that he was taking serious chances by insisting upon playing when he should have been in bed or on the bench. Ruth likes his baseball better than any player that ever lived and that is the big reason why he is the highest priced and most valuable player in the game.

He is big enough and strong enough to throw off an attack of illness that would keep another player on his back for weeks. He probably told a newspaper man that he was about to break and about through.

Tuesday when the season opens if he has to slide down a rope from his window.

RUTH HAS A GOOD NIGHT

New York, April 10.—Babe Ruth was considerably improved today after a night's rest at St. Vincent's hospital to which he was taken late yesterday, suffering from a knock on the head, indigestion and influenza.

The big ball player passed a good night. The injury to his head, sustained in a fall in the wash room of a Pullman car yesterday has not proved serious.

HARRY WILLS MAKING A MISTAKE—FARRELL

By HENRY L. FARRELL
(United Press Sports Editor)

New York, April 10.—When negotiations were being carried on some time ago for a match between Tom Gibbons and Harry Wills, the Negro heavy-weight challenger, modestly admitted that he desired \$300,000 for his end. Negotiations, of course, were then immediately abandoned.

Wills really may think that he is worth that much money, and again he may have covered up a reason for not wanting to fight Gibbons with an exorbitant money demand.

The demand showed nevertheless the inflated ideas that boxers have about the value of their services and it recalled a remark made some time previous about another case by Dan Morgan, veteran fight manager.

"The trouble with the boxing business now," he said, "is that five-dollar fighters and thousand dollar fighters and ten-thousand dollar fighters want a million. In the old days when they had fighters, a five-dollar fighter was a five-dollar fighter and he knew it."

"Mickey Walker, the welterweight champion, is the only champion in the business today who is worth the money they are paying for purses. Jack Dempsey as a fighter isn't worth half the money he's getting. Dempsey doesn't compare to some of the fighters like Ketchell, who were real fighters and who didn't stall around looking for a million bucks a year. Walker is a real champion, a smart fighter and a smart little business man."

As Morgan also points out, there is so much of a demand for boxing cards now and so few high class fighters who are willing to take a fair purse that ordinary fighters and punks can get into the big money. Some preliminary fighters are getting more money than champions in the old days, but the present conditions cannot continue.

RICKARD PREDICTS A SLIM SEASON FOR FIGHT FOLLOWERS

PUGS DEMAND TOO MUCH FOR GOING THROUGH THEIR PACES

SAYS HE HAS BEEN UNABLE TO MAKE A GOOD MATCH

By HENRY L. FARRELL

New York, April 9.—Another season of slim business for summer boxing is in prospect, according to Tex Rickard, who has two of the biggest plants in the Metropolitan district. "I have been unable to make one good match, and I don't see any in sight," Rickard said. "You can name any number of cards that would be good enough for the Yankee stadium or the Jersey City arena, but naming them and making them are two different things."

"Heavyweight matches, of course, are the most attractive to the public, but they can't be made. It begins to look like Dempsey is through. Wills doesn't want to fight any of the top-notchers. The Gibbons, Tunney match, which has been made by Jimmy de Forrest, is a good match and is one of the few naturals available."

This Man Intends to Keep It in the House

"In May or June, 1913, I sent to you and got four bottles which were worth many dollars to me. They enabled me to go to work again. I had lost 40 pounds, but these 4 bottles of May's Wonderful Remedy for stomach trouble gained back all I had lost and I feel like a new man since. I shall keep it in the house all the time." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy, Economy Drug Co., and druggists everywhere.—Adv't.

RUTH'S COLLAPSE REVIVES INTEREST IN THE BIG PLAYER

HOME RUN KING HAS COLOR; MANY MISFORTUNES MAKE HIM CARD
